## **Evidence of Success**

1. Students have shown a keen interest in accessing e-resources from the library.
2. This has motivated the students to visit the library itself, thereby increasing the average footfall in the library.

## **Problems Encountered and Resources Required**

1. Like every new initiative, the students were initially reluctant to use these resources. But continuous campaigning among the students had finally resulted in more and more active participation from the students.
2. Due to poor internet connectivity in the rural areas, some have failed to take full advantage of this system.

The Library is automated with Koha open source Integrated Library Management Software (ILMS) (Current Version: 22.05.07.000) since 2018. Currently the web OPAC searching facilities are available through the internet. The library launched its own android application which is available on Google Play Store under the title 'Kandi Raj College Library' in order to provide easy remote access to the library. It is in the process of being fully automated in order to become one of the most modern academic libraries in a semi-urban area
