One-Day Special Lecture and Training Programme

This is hereby notified that the Department of Economics and Department of Computer Science, Kandi Raj College, in collaboration with the Department of Economics, K. K. Das College (Kolkata), are organizing a Special Lecture and Training Programme on “**Basic Data Interpretation Using M-S Excel**”. On this event we are inviting Prof. Madhurima Koley, Department of Economics, K. K. Das College (Kolkata), as our honorable resource person, to enlighten the students Economics (Major/Minor) and Computer Science (Minor/MDC) on the aforementioned topic.

The event will be held on **19th December 2024 (Thursday)**, 12pm onwards, at the **Department of Computer Science, Kandi Raj College**.

All the **Sem (I & III)** students of Economics (**Major/Minor**) and Computer Science (**Minor/MDC**) are thereby requested to register for the programme. However, due to seating constraint we are bound to accept the registration for the **first forty** applicants only. Those who are accepted for the program will be intimated through their mail ids. The students are also requested to carry their own laptops (if they already own one). The link for registration is also attached herewith: <https://forms.gle/94Ai4BTC2sEjZMm66>

Description

On the occasion of the glorious 75th Birth Anniversary of Kandi Raj College, Kandi, Murshidabad, Department of Economics continues to uphold the true spirit of the Institution by guiding and inspiring the undergraduate students with the contemporary know-how in the fields of Economics. The Department aims at providing a unique platform for the students to kindle their interest in higher studies and research with peers and professionals, and explore the latest advancements in these contemporary issues.

On the 19th of December, 2024 (Thursday) the Department of Economics conducted a One-Day Special Training Programme under the ongoing MoU between K.K. Das College (Kolkata) and Kandi Raj College (Murshidabad). It was held in the Department of Computer Science, Kandi Raj College, as it was also an Inter-Departmental programme, held in association with the Department of Computer Science, Kandi Raj College. The training programme was based on M-S Excel and its theme was “Basic Data Interpretation Using M-S Excel”. The cohort of this practical programme were the Major and Minor students of both the Economics and Computer Science departments. We had invited Mrs. Madhurima Koley (Assistant Professor, K. K. Das College) as our esteemed guest lecturer for the above-mentioned programme. The lecture was insightful and the students were truly benefitted by this kind of hands-on training programme.

The training program commenced from 12:15pm with an Introductory Speech by Mr. Deepto Majumder, Assistant Professor, Department of Economic, followed by a Welcome speech by Dr. Soma Datta, Principal, Kandi Raj College, and felicitation of our guest lecturer Prof. Madhurima Koley. Next a Speech on importance of M-S Excel was delivered by Mr. Ananta Patra, IQAC Coordinator, Kandi Raj College. The event concluded with a Vote of Thanks by Mr. Tuhin Dey, Head-In-Charge, Department of Computer Science, and Mr. Dwarakeswar Dutta, Head-In-Charge, Department of Economics.

The program acquainted the students with various aspects/features of M-S Excel, thereby, successfully catered to its motto of raising the awareness of students in the day-to-day application of M-S Excel for reducing time and labour for a given assignment. The responses of the students were commendable and they were intrigued by the insights of M-S Excel application.
